

Grading deatils

Since both midterm exams were scored out of 100 points, the final score is calculated as the average of the two exam scores and the project.

Given the relative ease of the exams, the following grading scale will be applied:

50–59 points : grade 6

60–69 points : grade 7

70–79 points : grade 8

80–89 points : grade 9

90+ points : grade 10

The project score is included in the total, but in order to pass the course, a student must achieve at least 45 points from the exams alone (ie, excluding the project). For example, a total of 52 points—made up of 42 exam points and 10 project points—would not be sufficient to pass.

Note: Project grade are fixed and can not be changed, so only you can check your 2nd mid term on Friday 3-to 4 Pm

Formula for Grade: $Avg = (M1 \times 0.45 + M2 \times 0.45) + P$

Table 1: Student Grades

No.	Student ID	1st Midterm	2nd Midterm	Project Grade	Avg
1	76250148	38	10	7	
2	89221322	64			
3	89221050	63	10		
4	89201076	36			
5	89211191	73	72	8
