

Grading details : Since both midterm exams were scored out of 100 points, the final score is calculated as the average of the two exam scores and the project.

Given the relative ease of the exams, the following grading scale will be applied:

50–59 points : grade 6

60–69 points : grade 7

70–79 points : grade 8

80–89 points : grade 9

90+ points : grade 10

The project score is included in the total, but in order to pass the course, a student must achieve at least 45 points from the exams alone (ie, excluding the project). For example, a total of 52 points—made up of 42 exam points and 10 project points—would not be sufficient to pass.

Formula for Grade 2: $\text{redAvg} = (0.9 \times \text{Exam 2}) + \text{P}$

ID	E2 (Marks)	Project	Total = 0.9 x E2 + P	Grade
89221050	60	9	63	7
89231147	60	8	62	7
89231228	71	8	71.9	8
89221073	50	8	53	6
89221008	70	8	71	8
89221088	70	9	72	8
89231012	63	8	64.7	7
89231157	28	8	33.2	5
89201076	14			5
89237379	5			5
89221193	38			5
89231252	72	9	73.8	8
89231290	10	9	18	5
89221327	53			6
89221123	64			7
89221011	74	7	73.6	8
89231064	34	7	37.6	5
89221303	35	8	39.6	5
