DECLARATION ON THE USE OF GENERATIVE AI (GenAI)

Computer Practicum — Project Report

Course: Computer Practicum (WIS–LES) | Lecturer: Niki Hrovatin

This declaration applies to the Computer Practicum project, including the individual report and additional material.

Name and surname	
Enrolment number	

1. Permitted and Prohibited Use

GenAI may be used for all project activities except report preparation, including learning, experiment planning, and programming.

The written report, including its text, structure, and formatting, must be prepared independently by the student.

Not permitted

- generating, paraphrasing, rewriting, proofreading, or polishing report text
- using GenAI to prepare, structure, or format the report, including any document preparation tasks specified in the report instructions.
- submitting GenAI-assisted work without declaring its use in this form

Responsibility: Students are responsible for the accuracy and integrity of their measurements, results, and submitted work, including AI-generated code.

2. Student Declaration of GenAI Use

Tick one:

☐ I did not use GenAI for this project.

☐ I used GenAI only within the permitted scope described above.

If GenAI was used, briefly describe how it was used:

Tool(s) used: *(provider / model / version)*

_____

3. Student Declaration

I declare that I have accurately disclosed any use of GenAI and complied with the rules above. I independently prepared the written report, including its text, structure, and formatting.

Place and date: _____ Student signature: _____
